Circuit Monitoring

WHAT YOU GET:

1

PINGS:
Pings are sent to measure packet loss, latency, and if a circuit is up or down.

2

TRACEROUTE:
Traceroute tests are sent to the router to provide circuit performance metrics.

3

NOTIFICATIONS:
Notifications can be sent via email to immediately alert you if a circuit goes down.
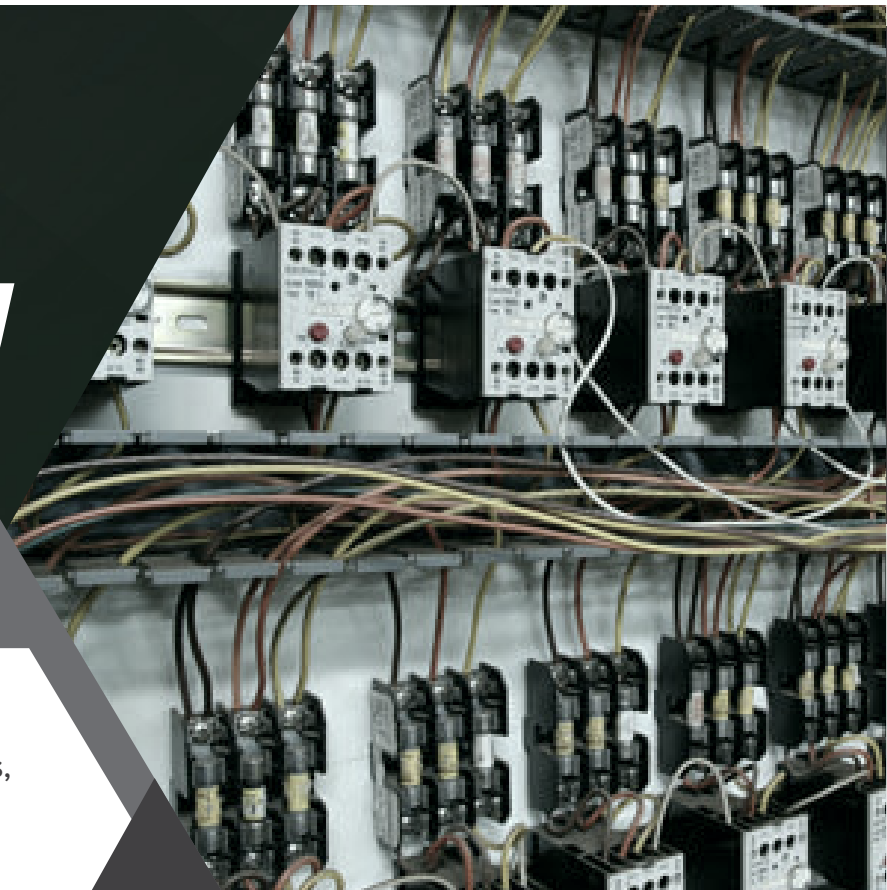

4

DASHBOARD & REPORTING:
Access to a dashboard to view current status of circuit as well as monthly emailed reports upon request.

AVAILABILITY:

Circuit Monitoring is available on internet and coax circuits with static IP addresses. MPLs and other monitoring is also available.

INTERNATIONAL CIRCUITS ARE ALSO AVAILABLE

Finding the right circuit monitoring system is no longer a complicated task. We believe there is value in monitoring provided by a third party. Your circuits will be monitored and tested at regular intervals to ensure quality performance. If you come across an issue, circuit monitoring services are there to find a resolution.
